

THE CHANCE !!!

STAGE 1

STAGE 2

STAGE 3

STAGE 4

STAGE 5

STAGE 6

FINISH

START HERE →

- ① You can only carry 3 objects or items you find.
- ② Decide if you want the money (There are no shops).

- ① Are you going to pick up the rope? Who is going to carry it?
- ② What about the tin of beans?

- ① Are you going to carry the umbrella?
- ② Are you going to pick up the ladder? Who is going to carry??

- ① How are you going to get across?

- ① Who is going to entertain the local people. (Look at peoples interests/hobbies in your group).

- ① How are you going to climb the steps safely?

- ① Who is going to wait?

The Chance!!!

What is this chance? Chance to succeed? Chance to work together?

INSTRUCTIONS

- 1. As a group you have to get from Start to Finish.**
- 2. Your group leader will cover the map and slowly uncover it as you move from START HERE**
- 3. You are in a jungle and have to make your way along a path, your journey will take 1 day.**
- 4. You can pick items you that you find on the way. WARNING – you can only carry 3 items between you.**
- 5. You can drop an item to carry another item.**
- 6. At each item you have to discuss and decide as a group, do you want the item and who is going to carry it.**
- 7. Some items are easier to get than others. Remember, life is like this!!! Sometimes the things that are easy to get are not what we really need?????**

When you have finished – what did you gain from this activity?

Working together:

The idea of this part of the session is to get the group to think about the challenges we have to face.

Get the group to think about 3 things they had to learn to do – can be anything like swimming.

Discuss briefly that each of the picture shown involve a challenge, to be successful people have to work as a team, like climbing a mountain, playing a game of football or netball etc....

The Chance!!! (Challenge)

Cover the map and slide paper from START HERE to first dotted line at end of STAGE1.

Tell the group the instructions (see separate list)

1. Have to get from A to B. Stranded in a jungle. At the end is a helicopter to take them to safety. Journey completed in a day.
2. Can pick up items they find e.g. Rope in a tree.
3. Can only carry a maximum of 3 items between them.
4. Group has to decide a) Who is going to carry each item.
b) How are you going to get certain items
c) How you will use the items when the chance comes

along.

Leaders Information:

Stage 1

Bag of Money

Useless, can not use it, but group may decide to pick it up. Group can discard an item in favour for another item later. Might want to raise issue of “money is not everything” at the end of the challenge.

Stage 2.

Rope (Can suggest to group it might be useful (will need this later to climb steps in a strong wind.) Does not matter if they do not pick up rope can change minds later. Who is going to climb the tree?

Tin of Beans get group to discuss if they need this or not. Some may say food, but you have not got a tin opener!!!

Remember, remind group they can only carry 3 items.

Stage 3

Umbrella and then a **Ladder** (*Are you going to pick up both items remember only carry 3 items?*) *Who is going to carry the item/s*

Stage 4

How to get across the river – use the ladder it is longer than the width of the river. Someone might suggest use rope to tie people together so no-one falls into the river.

Stage 5

Local people stop the group, group can not move on unless the local people are entertained.

Get the group to discuss who could entertain them. Get group to look at list of hobbies and interests – get group to decide who could entertain the locals. (Don't actually have to do the entertainment in the session!!)

How is the group to get up the steps with such a strong wind blowing? - group can discuss use of rope and who is to go first!!!

Stage 6

Reach helicopter – BUT only takes 2 at a time. Group discusses who goes first. Note it is raining, the umbrella might have been useful!!!!
